**EXAMINER'S AMENDMENT**

Acknowledgment is made of the amendment filed on December 05, 2007. Claims 1-7 are currently pending.

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gregory Montone on January 09, 2008.

The application has been amended as follows:

**IN THE CLAIMS:**

in claim 1, line 4, substitute the first occurrence of "a" with --an--; and

in claim 1, line 22, insert --RFID-- between "said" and "card".

***Allowable Subject Matter***

2. Claims 1-7 are allowed.

3. The following is an examiner's statement of reasons for allowance: although art is known which discloses the issuance of an IC card, the prior art of record fails to teach or fairly suggest either alone or in combination thereof:

an RFID card issuing system comprising a photographing unit, ID number reading unit; image processing software; and card printing unit, the system performing:

a step acquiring an image data by taking a photograph of a person by the photographing unit, thereafter acquiring the image data in a folder which stores the image data and is provided in a data storing unit by driving the image processing software by way of system software, applying a predetermined file name to the image data, registering the file name in a database, and associating the file name with personal information;

a step of reading the personal information of the person and the file name of the image data from the database by the system software to send the personal information and the image data to the printing unit, printing the personal information and the image data on a main surface of the RFID card by the printing unit, and issuing the RFID card; and

a step of reading an ID number of an electronic tag from the electronic tag on a rear surface of the RFID card by the ID number reading unit, registering the ID number in the database by the system software, and associating the ID number with the file name and the personal information.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
